DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With reference to Figures 2 and 7, it is unclear to the examiner how a tube diameter as small as 0.1 mm permits the insertion of the various elements as detailed. Please explain or delete the dimensions.

Claims 1 and 3 recite the limitation "frequency transmission line" in the last line.

There is insufficient antecedent basis for this limitation in the claim. The examiner suggests inserting "high" before "frequency" to correct this.

Allowable Subject Matter

Claims 5-19 are allowed.
